Test schedules:

Time	Achieves
5/5/2024	Functional testing
6/5/2024	Compatibility
7/5/2024	Feedbacks

Feedbacks:

Reviewer 1

Good points	Points for improvement
The website is well-designed and organized and the colors used are simple the simplicity of the whole website makes the user feel comfortable while browsing your site, also your website is mobile-friendly which may help your users to use it in different situations,	This is a small point that you need to be aware of, while the user enters the Contact Us form data, there's no validation on the form inputs, and I found that there's no interaction in this form at all, you need to improve this point in the future.

and also the website sections are sufficient and you effectively offered all the sections that must be offered in any home security website.	

Reviewer 2

Good points	Needs improving
Its overall beautiful design of the website, good animations, and the arrangement of page elements are features that I like.	the section where the card number color is close to the background color and the height of the cards in the 'Our plans' section is uneven

I will start to change some parts of the website.

Optimization:

1-change design of our plans part

The version one design

The new one

Our plans

Basic security package	Standard security package	Deluxe security package	Custom Security systems
$12/mo	**$15**/mo	**$20**/mo	**$25**/mo
1 x alarm system 1 x CCTV camera Local CCTV footage storage NOT centrally monitored	1 x alarm system 2 CCTV cameras Online and local CCTV footage storage NOT centrally monitored	1 x alarm system 4 CCTV cameras Online and local CCTV footage storage Centrally monitored	customers must contact the company to arrange an assessment and planning meeting.
contact us	contact us	concat us	Contact us

I am not interested in initiating any interactive communication at the moment as it does not align with my requirements and schedule.

Based on your requirements and user feedback

That's great to hear! Based on user feedback, it seems like the application meets your needs. Is there anything else I can assist you with?

I think not ☺

I thank you for your dedication and collaboration in executing the test plans and expressing our confidence together.
